In-depth discussions have explored and revealed key issues involved. Session will begin soon. Lesson plans devised because of this project will be posted at NAU and at the TRA website for all to use.</p> <p>The <i>Researching Route 66 Bibliography</i> of Route 66 is awaiting final approval and dates for release of the</p> | |

Conclusion

The Route 66 Road Ahead Partnership will continue to focus on national, “whole road” issues throughout 2024. Primary attention will be on securing National Historic Trail status, planning for the newly enacted national Route 66 Centennial Commission, and each of the other goals identified above.

We have successfully established our new organization – and we have *planned our work*. Now comes the challenging task of *working our plan*. This is not easy, and it will be a long journey, but traveling it together will bring us to the destination we seek on the road ahead.
